TIMELINE

GOALS & OTHER E-LAND PILOTS

The goal of the European-funded H2020 project E-LAND is to provide a synergistic solution between technological, societal and business challenges that the energy sector faces.

The main concept is the E-LAND toolbox – a modular set of methodologies and ICT tools to optimally manage Multi-vector LES and isolated communities. The modular toolbox can be customized to meet local requirements and expandable to incorporate new tools as new challenges arise. These tools will be tested through three pilots in Europe and simulated on two pilots in India.

Port of Borg
NORWAY

Situated in an industrial area on a small peninsula in Norway. The area is home to an assortment of industry actors including recycling plants, district heating.

The Industrial Metropolitan
BYPL, INDIA
